**One in every 150 people are diagnosed with autism
Early intervention is critical for success.
What is early intervention?
For our children...it’s the Domino Project Preschool.**

Domino Project is an early intervention program launched by Northwest Autism Center in partnership with Eastern Washington University and Sacred Heart Children’s Hospital. It is uniquely designed to model the marriage of healthcare, mental health and education in the provision of services to children on the autism spectrum and their families. Domino’s inclusive preschool, located on the campus of EWU, is committed to the development of “best practices” in intervention and education, implemented by experienced autism specialists.” -Northwest Autism Center Website: www.nwautism.org
