Northwest Autism Center (NAC) is a non-profit organization, located in Spokane WA. NAC exists to support, facilitate and build accessible and comprehensive community-based approaches to help children and adults with autism spectrum disorders in the Inland Northwest. We provide comprehensive ABA services in clinic, home and school settings. We are looking for a qualified and seasoned Speech-Language Pathologist to participate as a member of our team in providing an effective multidisciplinary approach to treatment. We invite you to take a closer look at what we do –you won't find more a passionate group of professionals who strive to make a difference in our community!

### Essential Job Duties

- Maintain and deliver high-quality services for assigned caseload of young clients in Early Intensive ABA Day Treatment Clinic
- Conduct comprehensive assessment and write appropriate individualized treatment plans and progress reports for clients
- Collect data, monitor progress, and make data-based modifications to treatment as needed
- Maintain a consistent, reliable, direct service schedule with clients
- Collaborate with Board Certified Behavior Analysts, families, and other team members to ensure program effectiveness and consistency
- Provide training and support to staff and families
- Maintain regular and effective communication with client families
- Participate in team meetings
- Supervises University practicum students as assigned
- Establish and implement practices to promote the care, safety and health of each client

The candidate must have excellent assessment, program development, intervention, organizational skills and experience in the treatment/care/education of individuals with Autism Spectrum Disorders

(ASD). Mature interpersonal, communication and collaborative skills are essential in order to work effectively with colleagues, schools, staff, ancillary service providers, parents and caregivers in programming that is both comprehensive and family-centered.

### Qualifications

- Master's Degree in speech-language pathology
- Certificate of Clinical Competence from American Speech/Language and Hearing Association
- Experience in providing services to young children diagnosed with Autism Spectrum Disorder and related disabilities
- Minimum of three years of related professional experience
- Qualify to become a licensed SLP in Washington State
- Knowledge and experience with Applied Behavior Analysis preferred
- Ability to work effectively on an inter-professional team
- Excellent assessment, intervention, and organizational skills
- Ability to pass background checks and clearances
- Infant/child CPR and First Aid certification will be required
- Mature interpersonal, communication, and collaborative skills
